UFPC Parts Connection®

Return Goods Policy and Procedures

UFPC instructs distributors to pass through to the parts purchaser the original manufacturer's warranty.

The distributor will not accept any returns without prior approval or consent from the distributor, which shall not be unreasonably withheld (a "Return Authorization"). All returns are subject to the parts manufacturer's return policies; we will honor returns based on the restrictions under those policies.

A Return Authorization is **required** for all returns and can be easily obtained by calling the UFPC Parts Connection # listed below.
The product must be in new, unused condition, and in its original packaging to be accepted.

To assist in making the process easy, please have the part number, the invoice number, and the reason for returning the part before calling for your Return Authorization.

Standard Restock Fee Policy on stock parts returned within:

0 - 30 Days .....0% Restocking Fee
31 - 60 Days .....20% Restocking Fee
61 - 90 Days .....30% Restocking Fee

No returns will be accepted beyond 90 days.

The credit for returned parts will be applied to a purchaser's "credit only" account within 15 business days upon receipt of returned parts.

Any deviation from this procedure may result in delayed credit processing or the forfeiture of your right to return a part or parts.

Authorized returns should be returned to:

Shortages and Damages
We instruct distributors to make every effort to ensure that the purchaser receives an accurate and complete parts order and that such parts are received undamaged.

If a discrepancy in the purchaser's order exists, the purchaser must contact UFPC Parts Connection's (866) 570-5893 immediately and report the problem by referencing the purchaser's order and the discrepancy.

If a purchaser's order is damaged, the purchaser must call UFPC Parts Connection's (866) 570-5893 immediately for assistance with the damage claim and to reorder parts. See further instructions under "Freight Damage Claims."

To assist with this process, the purchaser should save the damaged shipment container in the condition in which the purchaser received it for damage claims inspection. A digital photo of the damage may be required.

Freight Damage Claims
In the event of shipment damage, such damage must be noted on the bill of lading. A purchaser should notify the carrier, as well as UFPC Parts Connection Customer Service.
All obvious package damages must be signed for as damaged with the carrier at the time of receipt.
Parts **MUST** be inspected by you for concealed damage within 15 days of receipt.

Warranty Returns
A purchaser must complete a Warranty/Defective Claim form for all warranty returns. This form can be obtained by calling UFPC Parts Connection Customer Service. Once the claim form is completed and validated, a Return Authorization will be issued for the return of the Warranty/Defective parts(s) to the distributor. All parts must be returned within 30 days.

Warranty/Defective Claims are limited to the warranty conditions as provided by our manufacturers. The distributor will process the purchaser's warranty claim with the manufacturer of the defective part(s), and the distributor will issue credit for the claim once the manufacturer has accepted the claim from the distributor.

Any freight costs related to a Warranty/Defective Claim item, any replacement items and any parts returned for warranty processing are the purchaser's responsibility. As our manufacturers require complete warranty information from the distributor, processing of Warranty/Defective Claims will not begin until complete and accurate information is supplied to the distributor.
